

Isaac Watt

SOFTWARE DEVELOPER · COMPUTER SCIENCE STUDENT

☎ (613) 803-2652 | ✉ isaacwatt@icloud.com | 🏠 www.isaacwatt.me | 🌐 IsaacWatt

Skills

- **Languages:** C/ C++, JavaScript, PHP, SQL, Lua, HTML, CSS/SASS
- **Libraries, Frameworks & CMS:** Bootstrap, jQuery, WordPress, Node.js
- **Tools:** NPM, Git, Bash, LaTeX, Heroku, MySQL, ArcMap, Photoshop

Work Experience

Simplistics Web Design 🌐

WEB DEVELOPER

Waterloo, ON

May. 2018 - Sept. 2018

- Created **PHP** partials and templates to be used on the frontend of sites such as [Char](#), [Kandl](#), and [KWizCom](#).
- Designed and implemented an interface for users to purchase gift cards on [Athletes Kitchen](#), generating over **\$1000** in revenue the first month it was active.
- Implemented a 'User Management' [ETT](#) plugin managing over **1500** active user accounts on the front and backend.
- Created an 'Executive Management' **WordPress** plugin for [ETT](#), including a **MySQL** database which managed Executive Officers, Wards, and Schools.

City of Brockville 🌐

GIS ASSISTANT

Brockville, ON

May. 2017 - August. 2017

- Converted **AutoCAD** drawings to GIS format involving data format conversion, geometry verification, and database enhancement.
- Used **ArcMap** and ArcGIS Online as data visualization tools to create maps and web map applications such as [St. Lawrence Park](#), and [Outdoor Brockville](#).
- Assisted the engineering department with the collection of new, and improvement of existing data.

Staples Business Depot 🌐

TECHNOLOGY SALES REPRESENTATIVE

Brockville, ON

April. 2014 - August. 2016

- Consistently exceed given sales targets and projections by over **10%**.
- Used **easytech** software for device services such as setup, diagnosis, and repair, including connecting devices to remote access.
- Explained Staples tech products and services in plain language that was easily understood by the customer.

Projects

Watan 🌐

- Implemented a Waterloo spin off of the popular board game Settlers of Catan using **C++** as part of the CS246 final project.
- Created **UML** diagrams prior to development as a tool to map out a solution and choose appropriate design patterns.
- Practiced writing clean object oriented code through the use of encapsulation, inheritance and polymorphism where appropriate.

Checkered Flags 🌐

- Recreated the [Checkered Flags](#) website for the Leeds and Grenville Health Unit using **Bootstrap 3.3.7**, **HTML**, and **CSS**.
- Enhanced the responsiveness and **AODA** friendliness of the site, while giving it a more modern and user friendly interface.
- Met with the Checkered Flags committee once per week to present my progress, and discuss design choices.

Orb Game 🌐

- Created an orb launching game using **Lua** through the mobile development environment, **Gideros**.
- Used the [Box2D](#) engine to implement the physics and collision logic.
- Presented the project at my highschool during an open house night to encourage students to try programming.

Education

University of Waterloo 🎓

BACHELOR OF COMPUTER SCIENCE, CO-OP, 3A

Waterloo, ON

Sept. 2016 - April. 2021

- **Relevant Courses:** CS246 (object oriented programming in **C++**), CS136 (imperative programming in **C**), CS135 (functional programming in **Racket**), STAT231 (statistical programming in **R**).
- **President's Scholarship:** Cumulative highschool entering admission average of 95% or higher.
